## One Out Of Five Locally IN Government Jobs

(Special to the Avalanche)  
NEW YORK—How many Crawford County residents are holding down government jobs at the present time? How does the number compare, in proportion to population, with the number so employed in other areas?

According to the latest figures, there are relatively more local people in public jobs — Federal, state and local — than there are in most parts of the United States.

Out of every 5 local persons who are employed, 1 works for some branch of government.

The findings are based on data compiled by the Department of

Labor and the Department of Commerce.

Their figures show that government is now the biggest growth industry in the country. In the past five years alone, approximately 1.5 million people have been added to public payrolls.

Despite general belief, only a small part of this expansion, about 150,000, was at the Federal level. The bulk of it was accounted for by state and local governments.

Crawford County's 1965 figures show that an estimated 18.5 per cent of the local working force are public employees.

This compares with 13.6 per cent in the United States as a

whole and with 11.8 per cent in Michigan.

In line with the changes recorded generally throughout the country in the last five years, there are now some 315 local residents in government jobs, it is estimated.

This represents an increase over the total reported in 1960, when a Commerce Department survey listed the number of public employees locally at 268.

As for government payrolls, they have been rising much faster than employment. Since 1960, the outlay in this direction has jumped about 50 per cent nationally. The increase in personnel and the increase in wages account for it.

The new figures reflect the expansion that has been taking place in recent years in the services provided by public agencies. A substantial part of it has been in the fields of education, welfare, urban renewal, medical care and pensions.

The net result is that some 10.3 million people are on government payrolls now, compared with 8.8 million in 1960. They receive \$54 billion annually at the present time.

The article states that Bob is a native of Grayling, born here in 1924. Upon graduation from Grayling High in 1942 he joined the Navy, saw service in the South Pacific with a very brief visit to Japan at the close of the war. Upon his discharge in 1945 he took up sheet metal work. He abandoned this in 1948 in favor of running a restaurant in Mt. Clemens, since he had been a Baker/2c in the Navy and served as cook on an LST for 109 men. In 1949 one of the King supervisors suggested that Bob apply for a job in the service department where he could combine his sheet metal training and restaurant knowledge. He stayed in the service department until 1957, when he was transferred to sales, achieving the position of vending division sales manager. While still in the Navy, Bob in 1944 married Eileen Sorenson. They have lived in Harper Woods since 1949 in a home he and his father-in-law, Herman Sorenson built from scratch. The Chappels have four girls, Valerie, Judy, Kathy and Cindy, and son, Robbie.

## Local Cigarette Bill \$196,000 a Year

(Special to the Avalanche)  
NEW YORK—Residents of Crawford County have returned to smoking in a big way.  
Despite the steady barrage of medical reports in recent years linking cigarettes with cancer, heart disease and other ailments, they are puffing away at a record rate.  
For a time, following the Surgeon General's 1964 report on the hazards of smoking, there was a marked drop in cigarette consumption locally and elsewhere.  
Some people swore off completely, some cut down on the number they smoked and some turned to pipes as a substitute.  
As a result, cigarette sales in Crawford County, which were at an all-time high of 524 billion packs in 1963, dropped to 511 billion in 1964.  
During the past year, however,

most of the converts weakened in their resolve and took up where they had left off. They helped boost cigarette output to a new record—\$32 billion.  
In Crawford County, an estimated 672,000 packs of cigarettes were smoked in 1965, on the basis of regional statistics compiled by the tobacco industry and national data from the Department of Agriculture.  
This was at the rate of 210 packs a year for every person in the local population over the age of 18.

As a comparison, the average in the United States as a whole was 216 packs. In the East North Central States, it was 211 packs.

Government health officials hope that the new law that requires a label on each pack of cigarettes warning that smoking may be hazardous will be effective.

However, they don't expect any sudden tapering off. It will take at least ten years to bring about a real change in consumption, they feel.

Their immediate objective is to influence the youngsters between ages 13 and 18.

Each day, it is noted, some 4,000 boys and girls in that age bracket try smoking for the first time.

How much do residents of Crawford County spend annually for whatever satisfaction or pleasure it is that cigarette smoking brings them?

No less than \$196,000 a year at the current rate. For the individual smoker, the average is \$61 a year locally.

## GenTel Has Summer Construction Underway

General Telephone Company has begun its summer construction program for the Roscommon District. The mild weather has made it possible to begin construction a month earlier than usual.

Three construction crews are presently working on the West side of the Higgins Lake exchange. This project is the first of a two-stage program to extend the urban area of the exchange to include Higgins Lake completely.

If the manpower requirements can be met the General Telephone Company will complete construction projects totaling more than \$1,000,000, by November of 1966. \$705,000 will be spent on local telephone plant such as the Higgins Lake project. Other local projects to be completed this year will be extension of telephone facilities to the Lovells and McMasters Bridge area from the Grayling exchange, expansion of the Roscommon urban area, increasing facilities at Prudenville and transferring a part of Houghton Lake exchange to Prudenville.

Over \$350,000 will be spent in increasing and re-arranging the toll facilities in the area in preparation for the re-toll centering and Direct Distance Dialing planned for April of 1967.

"This is the largest construction program General Telephone Company has ever had for the Roscommon District." The only stumbling block we can see is the lack of adequate manpower, Al Murphy, District Manager stated.

## AMERICAN RED CROSS MEANS SERVICE TO U. S. FIGHTING MEN IN VIETNAM

WASHINGTON, D. C. — More than 300 messages a day — well over 100,000 a year — are sent to and from South Vietnam by the American Red Cross on behalf of U. S. fighting men there.

Some messages contain good news, the birth of a new child — others tragedy from an American serviceman far from home such as a death in the family. All are delivered with utmost speed and the sheer numbers are an indication of the up-swing of services for U. S. forces in Southeast Asia.

There are currently 138 ARC staff on duty in South Vietnam serving the U. S. Armed Forces there and this number will increase to more than 200 by July 1, 1966. They assist with immediate personal and family problems, with emergency communications, conduct recreation programs in hospitals and with center-club mobile units, and furnish emergency financial assistance when necessary.

ARC has workers in five hospitals in South Vietnam, plus two on

tion program General Telephone Company has ever had for the Roscommon District. The only stumbling block we can see is the lack of adequate manpower, Al Murphy, District Manager stated.

the USS *Roose*, the hospital ship just off the Vietnamese coast. Other hospitals affected in the Far East are in the Philippines, Japan, Okinawa and Guam.

Similar increases in Red Cross services are taking place in chapters throughout the country as sudden and lengthy separations caused unusual problems — and hardships on military families. In addition chapter volunteers are producing everything from the "ditty bags" to cast socks — which cover and protect the part of the foot not covered by a cast.

## General Phone Can Enlarge Area Base

The Michigan Public Service Commission has authorized General Telephone Company of Michigan to enlarge the base rate area of its Higgins Lake exchange in Crawford and Roscommon Counties by adding thereto an area of approximately five square miles in which residential development has reached the point where it is in the public interest to provide urban classes of telephone service without the application of exchange line mileage charges.

There are 243 customers in the area being added to the base rate area. Two hundred and seventeen of these customers will save approximately \$1,900 annually; 32 urban service customers will save approximately \$1,020 annually through elimination of their exchange line mileage charges; and 185 residence rural multiparty customers will have their service upgraded to 4-party service while their rates will be reduced \$4.80 each per year. The service of 28 business rural multiparty customers will be changed to individual line service and such customers will experience an increase of \$2.80 per month.

The mileage charge reductions will become effective in June 1966, and all re-grades from rural service to urban classes of service will be completed in September 1966.

## St. Mary's Ladies Club

St. Mary's Ladies Club meeting was held at the Parish Hall on Tuesday evening of last week. Mrs. Lawrence Goodrick, president, presided and many matters were brought up. The ladies plan to serve the Firemen's dinner on March 28th. The spring rummage sale will be April 22-23. The annual mother and daughter breakfast in May and a family picnic in June were discussed. It was voted to drop the summer smorgasbord for the year and have the fall one only. Fr. McKnight gave a talk on a very timely subject. He also hoped that arrangements could be made for Catholic high school students to attend retreats of the Sacramentine Sisters at Conway beginning the coming fall. The officers served coffee and cake. St. Patrick's Day decorations were used on the buffet table. There will be a combined meeting of the ladies and men's clubs in April.

#### TREE PLANTING TIME

By David D. Olson  
County Extension  
Natural Resource Agent

Now that the snow has melted  
and the shrubs are starting to bud,  
it is time for all private property  
owners to think about Spring plant-  
ing. What better way is there for  
you to perpetuate natural beauty  
than to plant some trees. Reforesta-  
tion can be your contribution to  
the "Beautify America" campaign  
and a living memorial for future  
generations.

The sandy soils of Crawford  
county are ideally suited to grow-  
ing pine. The species to be planted  
should be suited to the site. Open  
fields of light sand are best adapted  
to red pine. Red pine should be  
planted at a 7' x 8' spacing. Ap-  
proximately 750 trees will plant an  
acre of idle land.

For better quality soils or areas  
with partial shade, white pine is  
the better species. Space white pine  
at 6' x 7' or approximately 1000  
trees per acre.

Did you know that you can ob-  
tain information on tree planting  
from your Cooperative Extension  
Service local office or from the  
Michigan Department of Conserva-  
tion?

Private contractors can do the  
planting for you. Part of the cost  
of reforestation can be paid by the  
local Agricultural Stabilization and  
Conservation Service. Crawford  
County office is in Grayling.

Leave your mark on the land, by  
planting those idle acres.

## Your Dollar's Value . . .

"How Real Is Inflation In The U. S.?" That is the title of an article in the January 24 issue of U. S. News & World Report. It is accompanied by a full-page chart which makes informative, and woeful, reading.

Assume that the 1955 dollar was worth 100 cents. On that basis, your present food dollar has lost 15 cents in value; your rent dollar 13 cents; your home-heating dollar 20 cents; your college-cost dollar 24 cents; your auto repair dollar 20 cents. So it goes, down the list of the things we use and buy.

All in all, the magazine says, your cost of living dollar has lost 15 cents in its buying power over a mere 10-year period. It doesn't take an expert in higher mathematics to figure out what will happen if that trend continues — or, worse, accelerates.

And accelerate it undoubtedly will if the creation of huge deficits continues. The big domestic question now is whether or not Congress will take steps to protect what is left of your dollar's value, by really applying a heavy blue pencil to nonessential spending.

## Held For Ransom . . .

All of the United States was shocked by the ruthless strike on the municipally-owned New York transit system.

From the standpoint of blockading a city, we have had a mild taste of what it would be like to live on the communist side of the Berlin wall. There was perhaps one difference — you weren't shot if you tried to get in or out of New York City. But a handful of individuals flouted court orders and imprisoned the city.

Such acts are revolutionary in character. They are no true part of unionism. They represent disrespect for law and order. It is merely a matter of degree as to how far they can go. Can they be allowed to tie up a city, a state or the nation? It was even suggested by one of the official strike backers that the state of New York pay part of the city ransom. The city was held for ransom just as surely as were castles or cities in medieval times.

If we haven't laws suitable to protect the people in a case like this, it is high time we enacted some before the ransom idea spreads to other cities, the states or the nation. Surely, the people can be protected from ruthless acts endangering the public health and welfare.

The fifth in a successful and unusual series of "Loggers' Workshops" started Monday, March 28, in Gaylord according to Dave Olson, Crawford County Extension Agent.

"Michigan's booming pulpwood industry is using wood at an astonishing rate," states Agent Olson. "It takes a lot of good loggers to keep these plants rolling. This Loggers' Workshop helps to get more good men into this important industry but even more, it helps those now working to improve their efficiency."

Details of the program are listed as follows: The course lasts four weeks. A logger can receive up to

\$78.00 per week while attending. Course fees are paid from funds under the Area Redevelopment Act. Subsistence and travel allowances are paid through the M.E.S.C. Lucky for you it's always the guy next door.

This is a way many of us think about cancer: as if it only strikes the guy next door. And because you're you, avoids you. Perhaps you're lucky. But in 1965 cancer killed 805 guys next door every day. About 295,000 during the year.

Now it's impossible for it to always be the other guy all the time, for all of us. One day it may be someone in your own family. Or a dear friend. It won't always be the guy next door.

What are you going to do about it? Simply live in fear and hope that it will never be you? It needn't be that way. There is something you can do about cancer.

You can have a health checkup every year. Many cancers are curable if detected early and treated promptly. Over 90,000 Americans die of cancer each year who might have been saved. They delay seeing their doctors until it's too late. Many cancers can be cured. But they must be discovered in time.

There are cancers that science does not yet know how to cure. It's to gain this knowledge that money is needed. To continue the constant attack on cancer's resisting secrets. Is it caused by a virus? Can drugs be developed to cure cancer? Why do some people get cancer while others don't? Money to continue support of the many research projects well underway will help provide some answers.

Fight cancer with a checkup and a check. Some day it won't be the guy next door. Or you. Or anyone.

Congratulations are in order for Mary and John Galloway as they are the proud grandparents of a new grandson.

Our next meeting will be April 4th. We are planning an Easter party April 9th with a real live Easter bunny to arrive some time during the afternoon.

This party is for the Moose children up to 12 years of age. Please let's have a nice turnout. There is to be a potluck lunch in the basement afterwards. See you all then.

## Lake Margrethe

By Marjorie Flower

Mrs. F. J. McClain celebrated her birthday Sunday, having dinner with some of her family down town.

The ice went out of the lake last week, the first time in many years it has been this early. Another harbinger of spring.

The E. J. Birdsalls entertained the Ira Birdsalls of Mio on Saturday.

Friends are pleased at the nice recovery of Mrs. Myrtle Strong and hope she will soon be out well and happy and able to be home.

## Twin Bridges

By Mrs. Esther Herrick

Mrs. Clayton Kellogg gave a wedding shower for Miss Janet Johnson. A good time was had and she received many beautiful and useful gifts. Janet was married Saturday evening at the Lovells Chapel to Mr. Jay Reynolds of Flint. Congratulations to this fine young couple.

Nice to see Mrs. Geo. Olney and friend Mrs. Francis McCann up over last weekend. While they were guests of Mrs. Wm. Pooman, also they attended the annual year end party of the Cheerful Givers

club. Come back soon Dorothy. The weather has been cold but no storms here lately. More like spring and some of our spring flowers are coming up. Still feed plenty of birds.

**CARD OF THANKS** **My sincere thanks** to all who have remembered me with cards, letters, flowers and visits while I am confined to Munson Hospital of birds. Mrs. J. E. (Myrtle) Strong

Afterwards all went to Bill Knapp's Restaurant for a meal, and the manager there as well as several patrons commented on what a nice group the students were and what a pleasure it was to have so large a group that did not try to take the place apart.

## Lovells News

By Emma Stillwagon

Susan and Jim Koernke of Ann Arbor spent the weekend with their parents, the William Koernkes.

The Secret Pal group had their revealing party at Helen and Jerry's Rustic Inn. Gifts were exchanged and games were enjoyed by all. Mrs. Dorothy Olney and friend, Mrs. Mabel McCann of Detroit, came to attend and were overnight guests of Mrs. Polly Poorman.

Closeout special on famous name bras and girdles at Pink Lady, April 4th.

Mr. and Mrs. Harris and family of Flint spent the weekend at their cabin.

Miss Janet Johnson and Mr. Jay Reynolds were united in marriage Saturday evening at the Lovells Chapel.

Mr. and Mrs. Robert Radunzel and family of Greenville attended the wedding of her sister, Janet.

Rev. Jack Rink and family are enjoying a vacation with relatives in Philadelphia.

## Moose Lodge Activities

We're glad to see Jack Bigham Sr. up and around again. Alfred Hanson is coming along nicely too. He's expected to be out and around again in a couple weeks. Jim Post has been acting secretary, during Alfred's illness, and doing a fine job. We were so glad to hear of Max Borchardt's accident. A car almost ran him down, he came out of it with a broken wrist and cuts.

An enrollment was held at the lodge Saturday evening, with our own degree team enrolling several new members. There was a very nice sized crowd at the club afterward, with music for dancing being furnished by the Northerners.

This Friday, is regular meeting night, at 8:00 p. m.

Sunday, April 3rd, the members of the Moose Legion Club, will hold their monthly meeting at the lodge basement starting at 11:00 a. m. with breakfast.

Saturday, April 9th the WOTM are sponsoring an Easter party for children of Moose members, twelve old and under. Further details may be gotten from the WOTM.

Saturday, April 16th is our annual election of officers. Some changes have been made in candidates. Much to our regrets Bob Annis pulled his name as a candidate for Gov. due to a promotion in his job. Our congratulations on the promotion to, Bob.

However, Gov. Art Stephenson has decided to seek another term, on petition, as has Bill Fitzgerald, so there is still a good race for Governor.

There are at least two candidates for each office, so look them over carefully, and then vote. You have to be a member in good standing to vote.

Sunday, April 17th is a Legion of the Moose meeting in Bay City, at 2:00 p. m. We have several members from our lodge, taking their Second Degree then. We have some of our own members on the Legion degree team.

April 22, 23, 24, is the Moose State Convention at Lansing. Several members are planning on attending.

Somewhere, after election, during the busy month of April, an installation of officers will be squeezed in.

State Director Harold Kretsinger met with lodge officers and members last Wednesday evening. Some interesting questions were asked, and answered. The bid for mid-winter conference was also discussed.

We're glad to see Bill Hall back home. A little stiff maybe, but up and around.

## District Choir Festival

The day's program started with the adjudicated events. Each participating choir presented itself before a panel of three distinguished judges for a rating and comments on the quality of its performance. One of the required numbers is one previously determined by MSVA; the other is one of the choir's own choosing. The ratings given are I-superior; II-excellent; III-average; IV-below average; V-poor.

After completing this event each choir then moved to the sight-singing rooms. Sight-singing was made a part of the district choral festival in an effort to promote the development of musicianship. One of the requirements for the district festival is that sight-reading sessions must be included and that all groups participate in them.

The late afternoon and evening events consisted of a mass chorus rehearsal and public choral concert. A one-hour rehearsal of the mass singing selections was the first activity of the evening. Under the direction of the guest conductor, Maynard Kline, the Mass Chorus prepared the closing presentation of the evening concert.

Again this year District IX presented a program for the general public. For this purpose the students and choirs chosen to sing in the opening portion of the public concert were those who received the highest ratings in Saturdays festival and the recent Solo and Ensemble Festival.

March 22, 1966  
Mr. Elmer Fenton, Principal  
Grayling High School  
Grayling, Michigan

Dear Mr. Fenton,  
I wish to take this opportunity to commend you and your staff on the efficiency with which you conducted the state class "B" quarterfinal game. Also to be noted was the warm, courteous and personable manner in which our team was accepted while in Grayling.

Your hospitality in arranging for motel and restaurant accommodations was generous and appreciated. The reservations were the finest and least expensive we encountered on the complete trip.

Though the goal we were aiming for was not obtained, the help you volunteered was definitely a factor in what success we did enjoy. I was well satisfied with our efforts in view of the size, experience and potentially greater amount of talent we faced. However, I was disappointed that we did not get a chance at River Rouge's reputation. One thing for certain, I would welcome the opportunity to organize some of the talent I witnessed in lower Michigan.

Thanking you and your staff for your efforts and generous spirit during our stay in Grayling, I remain:

Sincerely,  
Duane Phillips

### Bear Introduces New Alaskan Tournament Bow

The newest member of the Bear Archery family of tournament bows is the Bear Alaskan.

With Bubinga wood risers and white glass on the limbs, Alaskan's looks like its modest price. The 66-inch bow comes in weights from 25 to 50 pounds.

Standard on the Alaskan is the famous Bear Adjustable Arrow Plate and nylon arrow rest, just as on the Bear Tamerlane. And, it's routed to accommodate the Bear Premier bowshot, though it may be ordered without the routing or sight plate.

Bear Alaskan is ideal for the weekend archer who wants quality equipment when he shoots but must keep cost down.
